WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Nothing significant to report.

SOUTHERN CALIFORNIA

- High Wind Warning in effect for Santa Barbara/Los Angeles/Ventura Counties
 - Strong northerly winds will continue to affect parts of the region into Thursday of this week.
 - These winds will primarily be over the mountains and valleys of L.A and Ventura Counties, and southern Santa Barbara County.
 - Winds will strengthen Tuesday night into Wednesday, becoming northeasterly Wednesday into Thursday.
 - Winds for the Santa Barbara County mountains and south coast will gust up to 45 to 50 mph tonight.
 - Tuesday, less winds are expected for the Santa Barbara South Coast, however the Santa Barbara County mountains should see gusts up to 65 mph.
 - The LA and Ventura County mountains will see gusts up to 50 mph for tonight, and stronger winds gusting to 70 mph starting Tuesday.
 - The Santa Monica Mountains, Santa Clarita, San Fernando, and Ventura Valleys will see gusts up to 40 to 50 mph tonight, and stronger winds of 50 to 60 mph on Tuesday.

WEATHER KEY POINTS

01/28/20 - 02/03/20

Monday-Saturday

- A weak system will bring additional Coastal region rain showers and mainly Sierra snow showers for northern Inland region today with no significant impacts expected
- Morning fog will again create travel difficulties today through at least Friday for portions of the central valley.
- A period of gusty winds can be expected for portions of southern CA today through Thursday will create travel difficulty for high profile vehicles and potential for downed limbs and power lines as well.
 - Includes the lower CO river valley, Lake Havasu and Lake Mead, during the day and evening Wednesday creating rough and hazardous lake conditions
- Additional weak systems will bring rain showers to northern Coastal region Wednesday and Thursday, but again no significant impacts are expected
- Dry conditions elsewhere across the rest of the state with temperatures warming to above normal for late January and no significant impacts anticipated

WEATHER OUTLOOK

02/02/20 - 02/10/20

6-10 Day Outlook (February 2 – February 6)

Temperatures

- Above normal temperatures favored for much of central and southern CA, with a slight leaning toward below normal temperatures in the extreme northwest corner of the state

Precipitation

- Below normal precipitation strongly favored across northern CA, with near normal conditions favored in the lower CO River Valley

8-14 Day Outlook (February 4 – February 10)

Temperatures

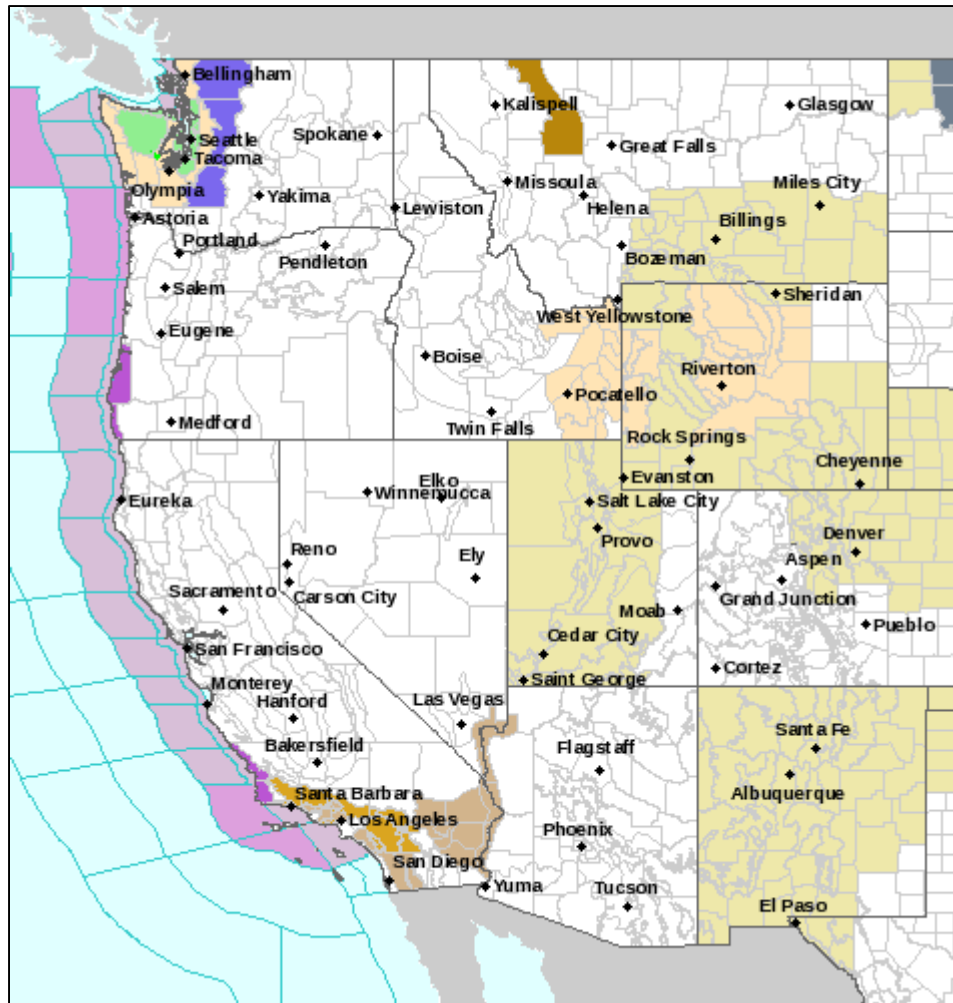

- Near normal temperature conditions favored across most of the state, with just the extreme northwest corner having a slight leaning toward below normal

Precipitation

- Below normal precipitation favored across much of the state, with just the southeast deserts and lower CO river valley indicating an increased likelihood of near normal conditions
